DESCRIBE HOW YOU WILL USE THE FESTIVAL TO COMPLEMENT YOUR CURRICULUM PLANS.

****Please note that we use this section to understand how much you integrate water issues and topics into your classroom. This may be something you are currently doing or are planning to do. We use this information to guide our decisions on which schools to pick to attend the festival. We find students who are already engaged in learning about water behave better and get more out of the festival.****

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
